WORK EXPERIENCE

Plane- Product Designer

Aug, 2023 - Jan, 2026

- Owned design of core workflows for a B2B project management platform, supporting usage across 50,000+ teams like **Zerodha, Sony, Accenture, etc.**
- Designed and shipped AI workflows, Agents, and Automations that reduced manual effort of users by **~30-40%** and a drastic lift in **feature adoption**.
- Built a scalable design system with reusable components and guidelines, reducing developer efforts by 30% and **improving consistency**.
- Go-to-market designer for the website experience, leading to a **15% increase in conversion**
- Enabled early product growth as a founding designer and contributed to product readiness during a **\$4M seed funding** round.

A9I KDD - UX/UI Designer

May - Jul, 2023

- Owned UX/UI delivery for products including **Feynman Express** and Finlair, improving task clarity and conversion flows, driving a **~20%** lift in completion of primary user actions.

Culture Circle - Meta Circle - Founding UX/UI Designer

Jan - Apr, 2023

- Led end-to-end product and brand design for a luxury sneaker reseller comparison platform, later featured on Shark Tank India.
- Designed trust-focused marketplace flows by clarifying pricing, comparison logic, and decision cues, reducing hesitation in high-value purchase flows (**Source X**).
- Shaped user experiences for **NFT and bidding platforms**, enabling clearer bidding flows and transaction understanding for collectors and resellers.

Shell Pvt. Ltd. - UX/UI Design intern

Jun - Jul, 2022

- Contributed to an enterprise dispatcher dashboard within Shell Mobility Systems improving operational visibility and reducing inefficiencies .
- Improved readability and interaction patterns in complex, data-heavy systems, helping **operators scan and act on critical information faster**.
