WORK EXPERIENCE

- PLANE — Product Designer (Founding)

Aug, 2023 - Present

 - Owned design for core workflows of a B2B project management platform used by active teams.
 - Shaped AI features including workflows, agents, and automations to reduce manual effort and support faster execution.
 - Established and maintained a design system, improving component consistency and handoff efficiency.
 - Reworked the dashboard structure to improve content prioritization, navigation clarity, and daily usability.
 - Supported early product growth as a founding designer and contributed to product readiness during a \$4M seed funding round.
- A9I KDD — UX/UI Designer

May - Jul, 2023

 - Delivered UX/UI for products such as Feynman Express and Finlair, focusing on task clarity and conversion flows.
 - Simplified onboarding and primary journeys by refining navigation and interaction patterns.
- CULTURE CIRCLE - META CIRCLE — UX/UI Designer (Founding)

Jan - Apr, 2023

 - Handled product and brand design for a luxury sneaker reseller comparison platform featured on **Shark Tank India**.
 - Built marketplace flows emphasizing price transparency, comparison logic, and trust for high-value purchases (Source X).
 - Designed interfaces for NFT and bidding platforms with attention to usability and transactional clarity.
- SHELL PVT. LTD. — UX/UI Design Intern

Jun - Jul, 2022

 - Contributed to an enterprise dispatcher dashboard within Shell Mobility Systems.
 - Improved readability and interaction in data-heavy operational tools used across European regions.
